

FREE Dental Services For Teens

FREE DENTAL
FOR TEENS
FROM YEAR 9
UNTIL THEIR
18TH BIRTHDAY

Did you know that basic dental services are free for all eligible teens from Year 9 until they turn 18 years old?

Let's face it - teenagers have a lot going on! But taking good care of their teeth shouldn't be an issue.

Your teen is entitled to one free examination per year, and this includes cleaning, scaling, fillings, x-rays and preventative treatments. We will let you know if more extensive treatment is required which is not included under the free services.

Teenage years are the time to build on healthy brushing habits and establish a lifetime of clean teeth and great oral hygiene.

Our friendly Dentists and Oral Health Therapists provide the very best free dental care for teens, so you know their oral health is in good hands with us.
