Please Note:

1. **All students should have a device to use for classwork and homework.** If there is an issue regarding the acquisition of a device, please contact Mr Swanink as soon as possible to discuss options. Information on devices can be found on the school website: <http://www.liston.school.nz/byod-information/>
2. The stationery listed in this document is in addition to the device. Where a student is temporarily without a device they should ensure that their work is recorded in means (paper, shared with another student etc)
3. All students are expected to have their own pencils, eraser, red and blue pens, ruler, pencil sharpener, glue stick, highlighter pen, blunt nosed scissors, coloured pencils etc.
4. All students doing Mathematics at Years 8 to 10 are expected to have a 180° Protractor, a 30cm ruler, a Compass
5. It is advisable that all Years 9 and 10 students have a Scientific calculator - Casio (Please name).
6. It is **strongly recommended** that all students doing Levels 1, 2 and 3 NCEA Mathematics and Statistics Achievement Standards **MUST** purchase a graphics calculator (recommended model Casio FX 9750 G11 – available from Office MAX and other stationery suppliers). This calculator will be used extensively in these courses.
7. All students doing Technology and or Graphics must have the following drawing equipment: 30° and 45° set square, 2H pencil (or clutch pencil), a compass and coloured pencils. Senior students will need in addition to this a more extensive drawing kit, including the following: Aquarela colour pencils and a compass set as well as other items (the teacher will inform students of further requirements).
8. Items available directly from The Graphics / Technology Department include:
 - Graphics Kit containing A3 paper, compass, set squares pencils etc (**recommended to purchase** at Year 10 – available for \$50 if purchased from the Department)
 - A3 Drawing Boards \$99 (optional)
9. Those students taking Level 2 and 3 Photography are advised to check with the Photography teacher about the camera requirements for this subject.
10. In some subject areas such as the Visual Arts, specialised stationery is required and often this is unavailable in retail stores. The school purchases this in bulk, at a discounted rate, passing this onto parents / students. Such stationery will be paid through stationery fees and made available to students at the beginning of their course.
11. Where there is a materials or printing cost for a subject, these are for equipment / materials / stationery which students use to create articles which are taken home.
12. The use of any type of **correcting fluid** or **vivid permanent marker pen** is **not permitted**.
13. Physical Education Uniform – House Sports T Shirt

Year 7 students will have to wear Mufti clothing for their PE lessons during the first 6 weeks of Term 1 while their house colours are being determined. Their PE shirts will be distributed through the student's PE class.

Years 8-11 students who require an additional or a replacement PE shirt, can pick one up from the PE Department.

All costs will be added to the parents School Account for payment.
